

Gallbladder Cancer Ultrasound Dataset

License Agreement for Usage

Required Information:

1. Name of the Research Project (study) for which the data is requested:
2. Agency funding the study (if any):
3. Will the data be used in conjunction with other research? If yes, what research?
4. The expected outcome of the study (publication, software, etc.):
5. Plan for publishing the results (e.g. scientific article, dissertation, etc.):

Consent:

By signing this agreement, I/ We agree to the following regarding the use of the Gallbladder Cancer Ultrasound Dataset (referred to as the GBCU dataset in this agreement):

- 1. Redistribution and Ethical Practices:** Without prior written approval, the GBCU dataset will not be further distributed, transmitted, published, copied, or disseminated in any way or form whatsoever, either in whole or in part, whether for profit or not and all standard ethical practices will be followed during the usage of the GBCU dataset.
- 2. Modification and Commercial Use:** Without prior written approval, the GBCU dataset, either in whole or in part, cannot be modified or used for commercial purposes.
- 3. Citation/ Reference:** All documents and published artifacts that use the GBCU dataset will acknowledge the use of the dataset by including an appropriate citation to our paper:
S. Basu, M. Gupta, P. Rana, P. Gupta and C. Arora, "Surpassing the Human Accuracy: Detecting Gallbladder Cancer from USG Images with Curriculum Learning," IEEE/CVF Conference on Computer Vision and Pattern Recognition (CVPR), New Orleans, LA, USA, 2022, pp. 20854-20864, doi: 10.1109/CVPR52688.2022.02022.
- 4. Required Information:** All requests should be accompanied by the duly completed information asked above.
